

# Vertical Turbine (VTP) Quickship Program PSI – Product Supported by Inventory

**Rapid Response  
for VTP Challenges**

## The Answer for Pressing Pumping Requirements

Flowserve Pumps offers the Vertical Turbine (VTP) Quickship Program as the answer for pressing pumping needs. Customers can choose from selected 6- to 18-inch models of this pre-engineered pump. Hydraulics and pricing are available through the Flowserve PROS+ pump selection program.

### Product Supported by Inventory Program

- Hydraulics and pricing from PROS+
- Shipment from one of the Flowserve regional manufacturing or distribution centers
- Shipment in as little as four weeks

### Standard Pump Construction

- Cast iron bowls
- Bronze impellers
- Bronze bowl bearings
- Threaded column pipe – carbon steel
- 416SS shafting with threaded couplings
- Rubber lineshaft bearings
- Cast iron discharge head
- Packed box

### Motor Construction

The 3-phase, 60 Hz, 460 V motor is designed with a hollow shaft and WPI enclosure. Horsepower range is subject to availability.
